

Improve Student Outcomes WITH Data

Schoolrunner: One place to track, analyze & take action

Gain important insight into all aspects of your school's unique ecosystem

- Keep a pulse on learning achievements with access to performance, behavior, and attendance metrics all within one system
- Pinpointing potential problems early on allows more time to strategize and take informed action
- Clear communication between faculty, parents, and students gives kids the tools they need to succeed

Easily integrate with your school's existing systems

- Powerful native assessment tools
- Seamlessly integrate with most student information systems, including:

- Compatible with custom in-house data systems

Save countless hours by simplifying your day-to-day workflow

- Save time by keeping all your data in one place
- Analyze & visualize any information you need in just a few clicks
- Easy access via any web browser or through our mobile app

"Schoolrunner has revolutionized the way we look at education data & make decisions. From an operational standpoint, the fact that everything is in one place saves an incredible amount of time."

Teachers gave Schoolrunner 4 out of 5 stars on ease of use

Available for iOS & Android devices.

Educators nationwide are rapidly improving student achievement using Schoolrunner.

Schoolrunner: A School Achievement Engine

Schoolrunner's innovative and dynamic platform stands out in a crowd of K-12 educational tools. We are a school achievement engine: a solution for your evidence-based teaching and learning needs. Launched in 2012 in partnership with one school, Schoolrunner has since grown to support 20,000+ students in 50 schools across the United States. Our mission is to help schools make better use of their data. We help you to achieve successful student outcomes through informed actions and thoughtful solutions. And we have the data to prove it!

Educators are pushed to be data-driven. Whether relating to school performance, professional development, state requirements, grant/funding generation, or parent involvement, schools require evidence to validate practices that lead to better student outcomes. Analyzing spreadsheets and merging information from different sources is not only time-consuming, but also requires a high level of expertise. Schoolrunner was created to save educators time: each school's uniquely configured site boasts a simple interface where relevant information is easily accessible and comprehensible for every administrator, teacher, parent, and student. We believe that data collection, analysis, and utilization results in meaningful change – and we believe this process should be the norm, and not a painful experience. We make it easy to engage with your data to uncover truths and create effective strategies.

Schoolrunner makes gaps so obvious that we have helped our partners move classrooms from under-performing

to above proficient within just one year. We have supported our schools' growth and change by providing deeper insight into what has worked, which areas to focus on, and how success can be achieved. We help our partner schools make evidence-based decisions by using data to proactively address challenges related to student achievement.

Schoolrunner works alongside your Student Information System to make sense of all that is taking place in your world. Our easy-to-use system integrates seamlessly with your existing educational tools, and is backed by a dedicated support team. We create meaning from your available information to help manage your school's successful future.

Processes and requirements evolve, but the mission to create successful students is a constant. And it requires the right tools – not only to ensure that students are moving towards graduation, but also to understand the different components that influence their success. We share the same purpose as our partners: we work to uncover relationships that lead to better schools and ultimately better student outcomes. We know that a student's ability to be a successful learner is the driving force behind evidence-supported initiatives. Schoolrunner provides visibility into the now while empowering the transformation from information to action. We make your data more than just a report: we make it central to shaping your students' success.
